### **Making your life easier**

## **Introducing our New Express Customization Tool**

To give you an even faster, easier way to modify standard enclosure solutions online, we are introducing the nVent HOFFMAN Express Customization configurator. Designed for maximum speed and efficiency, the Express Customization configurator, which replaces our former instant quotation tool, extends the functionality, and adds user-friendly features for users:

- Easy selection of the base enclosure or accessory to be modified alongside with their quantities.
- Easy-to-use specification for machining operations, including holes and cut-outs.
- Instant quote pricing according to applicable commercial conditions.
- Each configuration generates a unique item number, making order tracking easier.
- Configuration drawings for initial orders are stored in the system for your future re-ordering convenience at no additional charge.
- Option to add multiple Express Customization configurations in the same quote to save you time and hassle.

Making modifications with the Express Modification configurator is an easy three-step process!

## Step 1

### Run the configurator

First, go to [eldon.com](http://eldon.com) and sign in to [myEldon](http://myEldon). Then initiate a new configuration by clicking 'New' on the 'Configurator' section.

Join myEldon in [eldon.com/czone](http://eldon.com/czone)

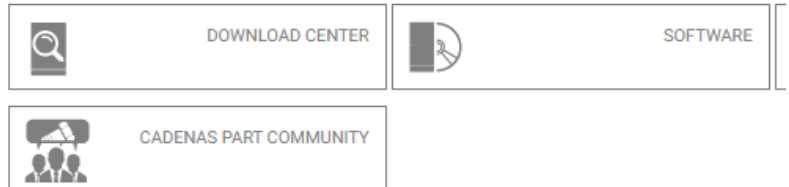

Select the 'Express Customization' model from the catalog.

## MyEldon

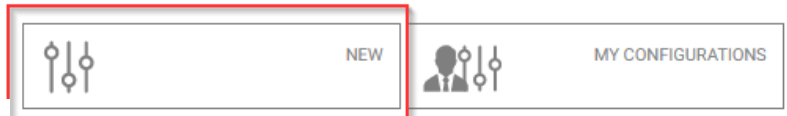

### Download Center

Download product documentation, catalogues, brochures, white papers and price lists. Get an ePlan library and much more.

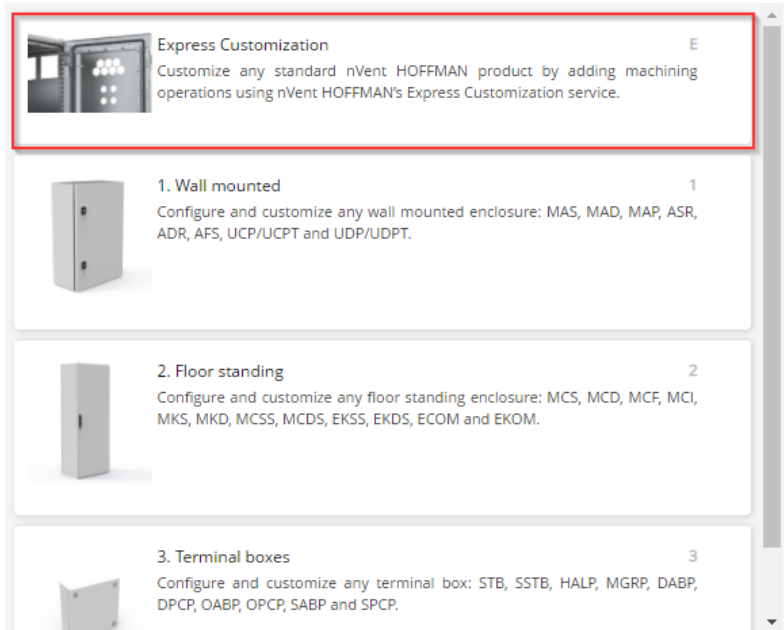

### Configurator

Select an enclosure together with their valid accessories, specify customization like finish, material, and get an instant quotation for your configuration.

### Product Catalog

## Step 2

### Configure your product

To configure your product, select your base product and quantity. Then, specify the machining operations.

#### Base product

Enclosure or accessory?  All  Enclosure  Accessory

Range

Material

Type

Item number

Quantity

How do you want to specify the required machining operations?  Face by face  For the whole item

A drawing is needed to place an order. Select your drawing format and the modifications you require in your base item.

Click 'OK' when you are ready.

#### Machining operations

Drawing format that will be provided to nVent HOFFMAN  DXF/DWG  Others

Machining operations required on the front?  No  Yes

Add machining operation

Quantity

Add machining operation

Know more on accepted Express Customization drawings in [eldon.com/ecdrawings](http://eldon.com/ecdrawings).

### Step 3

#### Get your quote and order

Here on the quote page, you will see the item number for your configuration, its price and the drawing modification charge.

In this step, you also can conveniently:

- Generate a PDF of the quote.
- Control quote document settings.
- Add additional products to the quote.

To place an order, provide the quote reference number (ELD-XXXXX) with the drawings for your configuration(s) to your nVent HOFFMAN supply partner.
