

Cable Entry Systems

CONNECT AND PROTECT

Faster and easier
cable feedthrough and assembly

With different shapes and sizes, nVent HOFFMAN Cable Entry enable tool-free, faster and safer feedthrough for cables.

The new user-friendly nVent HOFFMAN Cable Entry Systems portfolio makes it faster and easier to feedthrough and install cables into electrical enclosures. The portfolio features sealed entrance points for cables and maintains high ingress protection ratings – IP54 and IP66 – against dust, water and vibration.

As complements to the comprehensive nVent HOFFMAN portfolio of electrical enclosure solutions, these cable entry systems seal and terminate devices to protect electrical equipment inside an enclosure, while maintaining an enclosure's overall integrity and resilience.

GET THE ADVANTAGE OF:

Secure seals
and strain relief

Easier installation
in tight spaces

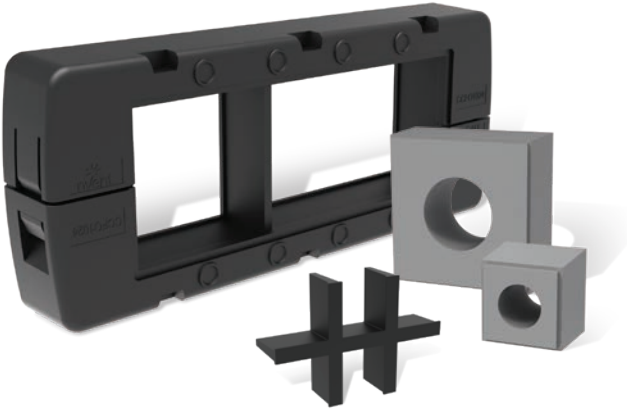

Time savings and
increased flexibility

FEATURED PRODUCTS

The comprehensive portfolio includes:

Connected Cable Entry Gland Plates

- Ideally suited for industrial enclosures that require a secure seal and strain relief for cables with or without connectors
- Allows openings and grommets to be adapted without dismantling the frame for simplified field modifications
- Modular design enables a quick and easy dimensioning of feedthrough openings, and helps to significantly reduce labor costs

Cable Entry Accessories

Time savings and flexibility

- New accessories and tools include locking frames, click-in inlays, actuated and punching tools, and sealing plugs
- Designed to streamline and speed cable assembly, and reduce manual labor
- One-stop shop compatibility with enclosure solutions reduces manual labor

Cable Entry Plates

Easier installation in tight spaces

- Ideally suited for applications in which installation must be carried out in a confined space
- Enables unassembled cables and pneumatic hoses to be quickly and easily inserted into enclosures on a small surface
- Easy installation – simply pierce the surface membrane and push the cables or pneumatic hoses through
- Tool free or screw fixated IP66 cable entry plates

- Tool-free IP54 cable entry plates
- Tool-free IP54 cable entry round plates

- Cable entry plates provide a very flat, space-saving professional cable entry with a very tight seal. The special shape of the membrane cone grommet helps ensure optimal strain relief
