

# M28 MOUNTING ADAPTER PLATE - SCREW MOUNT INSTALLATION INSTRUCTIONS

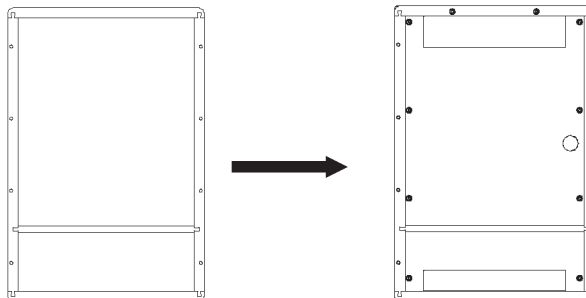

1) Remove 8 screws from back of unit.

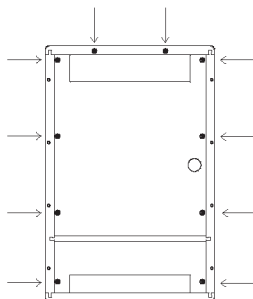

2) Apply gasket kit(28-1000-50) to rear of unit. Be sure the holes in the gasket align with the holes in unit. This gasket will be “sandwiched” between the unit and adapter plate.

3) Apply gasket kit(28-1056-06) to adapter plate(28-2308-00). This gasket will be “sandwiched “ between the adapter plate and the enclosure.

4) Apply adapter plate to unit using 10 screws.

5) Mount unit with adapter plate to enclosure.
