

Extreme Environments Air Conditioners

The ultimate in cooling and reliability for the most demanding environments

Carries highest-rated protection available
against water and particulates

01

Cooling you can count on

The only A/C unit with 4X, IEC IP66, IP69, and IP69K ratings against water and particulate ingress.

02

Durability inside and out

Includes stainless steel construction, smoothly designed vertical surfaces, 10-degree sloped cover, and easy to clean aluminum filter for reliable performance.

03

Easy to inspect and maintain

Shroud is easily removable with two front screws for convenient access to internal components.

- + Reduce downtime and replacement costs
- + Extended life of the air conditioning unit
- + Maintain optimal cooling performance for extended periods in the most extreme environments
- + Optional Advanced Corrosion Protection (ACP), Level 2

DESIGN FEATURES

Sheds water and dust

With a 10-degree sloped top shroud, sloped internal surfaces, smoothly designed vertical surfaces and minimal shroud fasteners, catch points for particulate, water and bacteria are minimized.

Easy to maintain

Shroud is easily removed with two front fasteners for simple access to key components, even when mounted close to a wall digital controller located on enclosure side as standard.

Durable aluminum filter

Units come standard with an aluminum filter that withstands washdown chemicals and can be removed and installed tool-free.

Note: Advanced Corrosion Protection, Level 2 coatings available upon request.

IDEAL FOR:

Water

Waste water

Petrochemical

Oil and gas
