

nVent CADDY In-Deck Adjustable Box Support

CONNECT AND PROTECT

The nVent CADDY In-Deck Adjustable Box Support (ABS) is a fast and secure method to install electrical boxes for concrete deck applications. The ABS series is designed to provide tool-free adjustment of commercially available in-deck electrical boxes while offering added on-site efficiency and flexibility. All support components are comprised of steel for a strong foundation, giving confidence the installation will remain stable during concrete pours.

FEATURES

- Ideal solution for in-deck concrete electrical box applications
- Easy, tool-free adjustment for various concrete deck depths
- Universal support for a wide range of commercially available electrical boxes
- Enhanced stability, utilizing the nVent CADDY Footed Box/Conduit Support 4" and 6" base
- More efficient installation compared to traditional methods
