

nVent CADDY Pyramid Light-Duty Equipment Supports

CONNECT AND PROTECT

The nVent CADDY Pyramid Light-Duty Equipment Support is a fast, flexible and innovative system for supporting HVAC units on rooftop surfaces. Superior load distribution and a low abrasion foam interface combine to ensure that the roof membrane is protected despite varying roof surfaces and shifting caused by expansion and contraction.

PYRAMID LIGHT-DUTY EQUIPMENT SUPPORT KIT

The nVent CADDY Pyramid Light-Duty Equipment Support Kit provides contractors with a quick and easy way to install HVAC mini split units on rooftops. When utilized with the nVent CADDY Pyramid Light-Duty Equipment Support Frame Extension Kit, installers can link multiple HVAC units. The unique attachment clamps and frame design allow for a more flexible and efficient installation method, saving contractors time, money and space.

Material: Steel
Finish: Hot-Dip Galvanized

Features

- System takes 80% less time to install compared to standard options on the market
- Easily adjusts from 12–18 in (305–457 mm), reducing the need for multiple SKUs
- Increased adjustability enables flexibility to move bars, sliding the kit as needed
- Extension Kit allows for pre-assembly and endless gang-ability of units linked together
- Evenly distributes load and avoids damaging roof membrane with nVent CADDY PEK-style foam bottom feet
- Product load rating can handle wide range of equipment BTU outputs/sizes
- Hot dip galvanized construction and hardware provide superior corrosion resistance in demanding environments

Catalog Number	Static Load F	Temperature	Height H	Length L	Post Base A	Square Tube B	Cross Bar Assembly C	Width W	Surface Area	Unit Weight	Ultimate Static Load F

PYRAMID LIGHT-DUTY EQUIPMENT SUPPORT KIT EXTENSION FRAME

The nVent CADDY Pyramid Light-Duty Equipment Support Kit Extension Frame provides an efficient way to link HVAC units together. Pairing with the nVent CADDY Pyramid Light-Duty Equipment Support Kit creates an innovative system that allows contractors to quickly and easily install HVAC mini split units on rooftops. To further increase overall productivity, savings and job site safety, opt to pre-assemble the system beforehand.

Material: Steel
Finish: Hot-Dip Galvanized

Features

- System takes 80% less time to install than using other standard options on the market
- Easily adjusts from 12–18 in (305–457 mm), reducing the need for multiple SKUs
- Increased adjustability enables flexibility to move bars, sliding the kit as needed
- Extension Kit allows for pre-assembly and endless gangability of units linked together
- Extension Kit is 8.4 in (213 mm) longer than four-post kit to allow for mounted equipment to be serviced in place
- Evenly distributes load and avoids damaging roof membrane with nVent CADDY PEK-style foam bottom feet
- Product load rating can handle a wide range of equipment BTU outputs/sizes
- Hot dip galvanized construction and hardware provide superior corrosion resistance in demanding environments

PYRAMID LIGHT-DUTY EQUIPMENT SUPPORT CROSSBAR

The nVent CADDY Pyramid Light-Duty Equipment Support Crossbar allows installers to quickly link together the nVent CADDY Pyramid Light-Duty Equipment Support Frames in parallel formation. Installers can benefit from increased structural rigidity and create an overall larger equipment footprint. The Crossbar can be utilized for mounting HVAC unit accessories such as line-sets, equipment shut-off boxes, and more.

Features

- Conveniently sold as a pair of bars
- Quickly install by simply sliding the bar over the system and fastening the screws
- Hot dip galvanized construction and hardware provide superior corrosion resistance in demanding environments
