

nVent CADDY In-Deck Plastic Foot

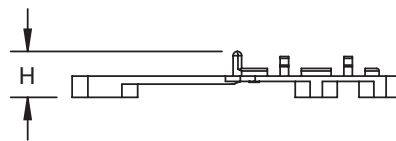

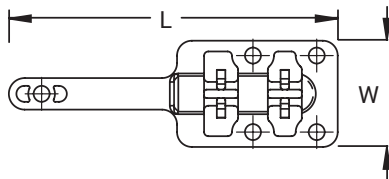

The nVent CADDY In-Deck Plastic Foot is a convenient method to minimize electrical installation exposure for concrete deck applications. The In-Deck Plastic Foot series is designed to provide a tool-free method of attachment to the nVent CADDY In-Deck Stub Up and Adjustable Box Supports, giving confidence the installation will meet the “no exposed metal” requirements.

FEATURES

- Easy, tool-free attachment
- ¼ in spacing allows for concrete flow
- Grey color minimizes visibility
