Our Reference: File E61997

Subject: **Reason that Listed UL508A (CCN: NITW/NITW7) enclosures do not have model nos.**

Dear Mr. Kampa:

You recently asked why enclosure model numbers do not appear on your UL Certification or in the Online Certification Directory which can be found at **www.ul.com**. Your file E61997 is covered under the category for Industrial Control Panels, UL category control number (CCN) NITW. This category also covers Industrial Control Panel Enclosures. NITW is what we refer to as a Type L category.

Products covered under Type L categories are not required to be marked with a Model, Catalog or Part Number as are products covered under Type R categories (Type R service covers many Listed products and all Recognized Components (like yours covered under NITW2)). Because of this, we're not allowed to add Model numbers to our Listing Information System which populates the OCD.

It is important to note that the presence of the UL Listing Mark on the product is evidence that it is Listed. Appearance of a Model Number in the OCD is not a substitute for that.

Please let me know if you have any questions.

If you have any questions, please do not hesitate to contact us.

Your business is very important to us and if there is any additional information that we may provide to you about the investigation or UL's other services, please do not hesitate to contact us.

Sincerely,   Reviewed by:

Anoka, MN 55303-1738
United States

This is to certify that representative samples of

NITW - Industrial Control Panels

See Addendum Page for Product Designation(s).

Have been evaluated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: UL 508A, 3rd Ed., Issue Date: 2018-04-24, Revision Date: 2022-07-28

Additional Information: See the UL Online Certifications Directory at https://iq.ulprospector.com for additional information

This Certificate of Compliance indicates that representative samples of the product described in the certification report have met the requirements for UL certification. It does not provide authorization to apply the UL Mark. Only the Authorization Page that references the Follow-Up Services Procedure for ongoing surveillance provides authorization to apply the UL Mark.

Only those products bearing the UL Mark should be considered as being UL Certified and covered under UL's Follow-Up Services.

Look for the UL Certification Mark on the product.
