Part Number	Wire Rope Diameter	Length	Number of Locking Devices
SLK15L50MPACK	1.5mm	164 ft	25
SLK15L500PACK	1.5mm	500 ft	100
SLK2L100PACK	2mm	328 ft	50

The features of this box allows end-users to pull and cut every length of wire that is needed without having to take the spool out of the box. This product is also ideal for rework in situations where custom lengths of wire might be needed.

Plastic release tubes allow for keyless installation

Plastic release tubes can be easily manipulated, even when wearing bulky gloves

The locking device can accommodate wire rope at a very wide range of angles, allowing it to be positioned closer to the load, hiding it from view and creating a much more aesthetically pleasing finished product

Neutral position of the spring-loaded tubes is locked, reducing likelihood of accidentally dropping an assembly during installation. This is much safer than release buttons found on some competing products that can be accidentally engaged

Arrows on the device clearly demonstrate the correct direction to push the wire

Two jaws grip the wire inside the device, holding the wire more securely than single-cam devices

Top and bottom of the locking device are symmetrical, allowing installation in either orientation

WIRE ROPE CUTTER

Part Number

SLWC

This wire rope cutter is designed to reduce wire rope fraying. Wire Rope Cutter is sold separately.
