

## CONNECT AND PROTECT

### The nVent CADDY Telescoping Strut Replacement

is an innovative alternative to using traditional strut channels for trapeze or other support structures.

- Pre-cut design is easier to transport and store than standard lengths of strut
- Captive threaded nuts enable fastening to threaded rod supports without loose parts
- Integrated ruler displays space between hanger rods in inches and centimeters

The TSR1220, TSR1220R, TSR1220N and TSR122038RL are all produced in the United States and can be used on projects that have Buy American Act requirements.
